

# User Guide - How to join a meeting in Teams via a (Edge or Chrome) web browser

Teams is **not** installed on your device. Your device has either *Microsoft Edge* or *Chrome* installed.

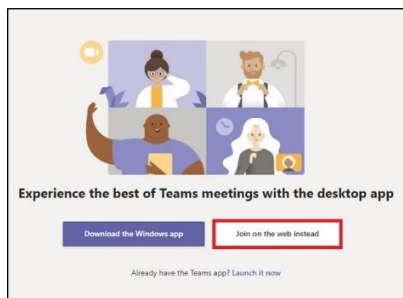

**This method is not support on mobile/smart devices.**

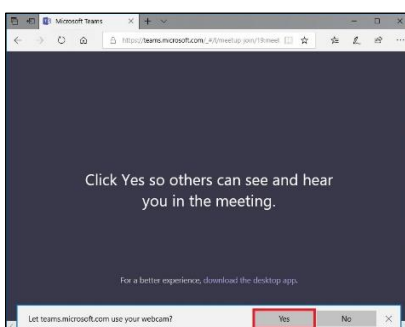

You have received an invitation to join a meeting in Teams

Click ***Join Microsoft Teams Meeting.***

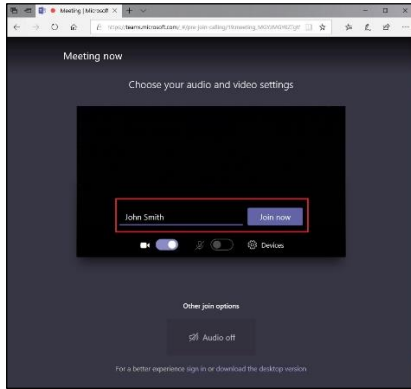

**Any internal and/or external recipients can access this meeting.**

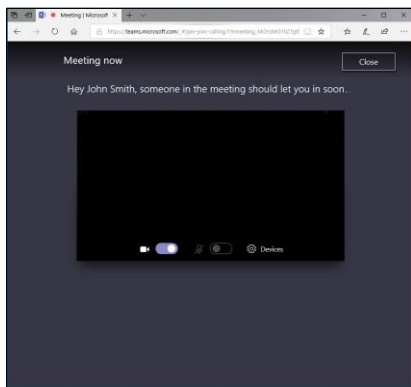

Click ***Join on the web instead***

To enable video and audio for this meeting, click on **Yes.**

Type your *full name* and click on **Join now**

You will be placed on hold until the host initiates the meeting.

Click on the **Hang up** icon to finish.
